DETAILED ACTION

1. Applicant's 8/11/06 Preliminary Amendment has been entered.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 24-44, drawn to a method for transporting a sheet; and

Group II, claim(s) 45-46, drawn to a method for transporting a sheet.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I (i.e., claims 24-44) is directed to a method for transporting a sheet, in which a single sheet is moved and guided on two different carriers. On the other hand, Group II (i.e., claims 45-46) is directed to a method for transporting a sheet, in which a single sheet is moved along a first carrier into contact with a web supported on a second carrier, and then the single sheet is joined to the web on the second carrier and moved along the second carrier as part of the web. In other words, Group I (i.e., claims 24-44) involves movement of a single sheet along two different carriers, while Group II (i.e., claims 45-46) involves the manufacture of a web by moving a single sheet into contact with a web,

joining the single sheet to the web and the moving the web having the sheet added thereto.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
